A human milk bank is "a service which collects, screens, processes, and dispenses by prescription human milk donated by nursing mothers who are not biologically related to the recipient infant". As of March 2014, there are 18 milk banks in North America that are members of the Human Milk Bank Association of North America (HMBANA). They are usually housed in hospitals, although some are free ...

Human rights in North Korea are severely limited. Despite numerous rights being de jure guaranteed by the country's

constitution, human rights groups such as Amnesty International and nations such as the United States have asserted that in practice, there is no de facto right to free speech, and the only radio, television, music and news providers that are deemed legal are those operated by ...
